UNDERWATER EQUIPMENT

THE CHOICE OF CHAMPIONS

seamless

Nemrod has made major contributions in the development of diving equipment.

The first face masks, the first snorkels, the first successful automatic, closed-circuit breathing apparatus using oxygen and lime, and the first spring and pneumatic spear guns.

We will continue to introduce to professional and recreational divers alike, the finest, precision-engineered, quality-produced diving gear made.

NEMROD GUARANTEE

Nemrod underwater equipment is constructed of the finest materials available and is thoroughly checked by a professional quality control department. All Nemrod products are guaranteed free from defects in material and workmanship.

Seamless agrees to repair or replace at our option, any products found to be defective by Seamless within one year from the date of purchase by the customer. This guarantee is given in lieu of all other guarantees, either expressed or implied.

MTI SEAL

All Nemrod underwater equipment carries the seal of the Marine Testing Institute, Inc., a unique badge of industry recognition that our products have been tested and approved as meeting the high standards of MTI for safety, performance and quality. This seal is your added assurance that you get the best when you buy Nemrod.

All-Depth Regulators

DELUXE SNARK III 3-STAGE, 2-HOSE REGULATOR
Engineered for maximum safety and effortless ALL-DEPTH breathing . . . the ultimate in regulators. Chrome-plated brass housing insures years of corrosion-free use. Multi-port Venturi system provides maximum air flow for natural breathing. Non-return valve in exhaust hose keeps mouthpiece free of water and exhaust air. A two-stage regulator, Snark III features a third safety stage to eliminate possibility of ordinary malfunction. Large diaphragm allows both stages to open with minimum breathing effort. Internal mechanism of large, identical orifices prevents air restrictions regardless of tank pressure.
99-6236 ..... **$76.30**

SNARK II SERVO-ADJUSTABLE REGULATOR
The ultimate for sport and commercial divers, the Servo regulator has an adjustable knob control which allows the diver to set his own breathing requirements in complete comfort. Heavy-body, high-pressure housing has a unique safety stage plus a heavy-duty hose five times stronger than working pressure.
99-6286 ..... **$61.00**

SNARK II SUPER REGULATOR
A reliable regulator that has proven to be the finest available for all-around use. An adjustable, balanced, high-pressure stage for constant air pressure at any depth. The non-kinking nylon rubber hose is tested at pressures five times greater than the working pressure. The fail-safe safety stage regulates and compensates for any over-pressure. The purge exhaust button is flush against the streamlined housing of the regulator. The unique intake and exhaust system gives you effortless breathing.
99-6276 ..... **$50.85**

SNARK II SPORTSMAN REGULATOR
A fine recreational diver's regulator, the Snark II is made of non-corrosive material throughout. Of full-swivel mouthpiece design, it features high-pressure safety stage equipped with large intake and exhaust ports for easy breathing.
99-6226 ..... **$35.30**

Trouble-Free Valves

INTERCHANGEABLE N VALVE
This 3/4 in. O'Ring seal N valve is made to rigid, high-pressure, compressed air specifications. Trouble-free, it is constructed of self-lubricating, non-corrosive metals for long service.
99-6151 ..... **$19.25**

RESERVE ARM
For the diver who wants a reserve air system, the Nemrod Reserve Arm (a 300 P.S.I. spring-loaded unit) may be easily attached to the Nemrod Interchangeable N valve.
99-6153 ..... **$16.30**

INTERCHANGEABLE MRV-I RESERVE VALVE
This precision-built 3/4 in. O'Ring seal valve has a pressure-compensated, spring-loaded, positive 300 P.S.I. reserve air system. The MRV-1 is made of heavy-forged brass and has a non-snagging, easy-grip valve handle for turning the air supply on and off. Other features include a safety plug and a submersible gauge fitting.
99-6152 ..... **$34.55**

MRV-II RESERVE VALVE
This precision-engineered, high-pressure, manual reserve valve was developed for utmost efficiency with twin tank assemblies. Non-corrosive, lubricated-metal construction makes this valve safe and trouble-free. The center valve stem body's extra length provides maximum efficiency necessary in high pressure air valves. A 600 P.S.I. spring-loaded air reserve system meets all I.C.C. specifications.
99-6103 ..... **$50.85**

TRIPLE RESERVE VALVE (Adjustable)
A rugged, heavy-duty valve for the commercial diver. This valve has an interchangeable arm to fit both 44 cu. ft. or 72 cu. ft. cylinders. The reserve spring is set for 600 P.S.I. and meets all I.C.C. specifications.

Performance-Proven Diving Cylinders

Now every Nemrod cylinder has special internal and external sealers and coatings to assure the owner of maximum safety and long "rust-less" use of his tank. The interior of every tank is epoxy-coated to help reduce the possibility of interior corrosion. Exteriors of the Nemrod tanks are either galvanized or have a long lasting rust and peel-resistant coating of international orange vinyl.

All Nemrod 72 cu. ft. tanks . . . orange, galvanized, single or double are available with many combinations of valves, back packs or harnesses. These tanks have the 3/4 in. O'Ring for easy installation or removal of valves without special tools and a 15/16 in. neck opening for easy visual inspection of the tank's interior.
